

Dear Birthparent,

We would like to thank you for choosing life for your child and for considering our family in your adoption plan. It is because of beautiful people like you that we have become a family. Our dream now is to expand our family. We hope this letter helps you understand our family and the life your child could experience with us. We pray that God will watch over you and help guide you in your decision.

Kaleb:

Kaleb is a fun loving and very energetic 3 ½ year old. His smile and personality light up the room when he enters. He is so caring and loves to be around all of his cousins as well as other children. He is excited to become a big brother. Santa couldn't deliver his gift wish last year, a little brother or sister. With God's help we hope to make his dream come true.

Becky:

I am the oldest of three children. I have one brother and one sister. They are both married with two children. We were always close during our childhood and remain that way as adults. It has been a joy to watch them become parents as our families expand. Watching our parents become grandparents has been a true blessing. I am currently an occupational therapist at the local hospital. I work three days a week which allows me more time at home with Kaleb. Becoming Kaleb's mom is my dream come true. In my free time I enjoy being outside with Kaleb, reading, and scrapbooking.

Chris:

I am the oldest of three children with one sister and one brother. My family is very close. I am an agronomist for the local coop. I enjoy the outdoors with the hobbies of fishing, hunting, and golfing. I also enjoy reading and woodworking. Becoming a father has brought so much joy to my life. I feel I have more love to share with children.

Our Life:

We were high school sweethearts and dated all through college as well. We dated for nine years before getting married. Our love has grown stronger with age. We did experience several years of infertility before deciding that God had another plan for us.

In September of 2004, our prayers were answered when we were chosen to be Kaleb's parents. We have an open adoption with Kaleb's birthparents and are very willing to do this again. Kaleb has been a gift from God as all children are. Please know that you are giving a gift of love and making dreams come true. Thank you for considering our family as you decide on your adoption plan. May God bless you.

Chris, Becky, and Kaleb
