

Dear Birth Parent:

Our hearts go out to you as you make the most courageous, selfless and difficult decision of your life. What a beautiful loving start you have given your child, the gift of life! We are very excited about the opportunity to build our family through adoption.

After being married for two years, we started trying to have a family. The emotional trials of a heartbreaking miscarriage and infertility treatments have strengthened our love for one another. We believe that God has a plan for us, and we feel that he has chosen us to adopt a child. We look forward to nurturing a child and providing him or her with all of the opportunities the world has to offer.

Jean

Jean is a kind hearted, fun loving, and very caring person. She has one younger sister and two nieces. Jean attended college and received a degree in Accounting and now works for an insurance company. In her spare time, Jean enjoys reading, shopping, walking, fishing, camping, playing games, and being with family and friends.

Dean

Dean is a patient, caring, and fun loving person. Dean is the second youngest of six children. He has three sisters and two brothers. Dean has nine nephews and two nieces. After high school, Dean went to a technical college and is now employed in cabinet making. When he is not working, Dean enjoys woodworking, fishing, camping, watching sports, and spending time with family and friends.

Our marriage and life

We married after dating for two years and have been happily married for seven years. There are many activities that we enjoy doing together and share many of the same interests, like our love of the outdoors, going to movies, vacations, and spending time with our families and friends.

We live in a completely remodeled home with a large yard in a nice neighborhood with lots of kids. It's a safe place to live and raise a family. We can enjoy the lower cost of living and quiet and peacefulness of a smaller town, yet we live minutes from a large city that offers lots of shopping, dining, recreation, and entertainment opportunities.

We know becoming parents will be the most challenging and rewarding experience we will face. We will share our values, opportunities, experiences, and traditions with our child; yet allow them to grow into their own individual self. We would like to adopt two Caucasian children from Minnesota, and we don't care if we have boys or girls. We are open to sharing letters and pictures with the birthparents.

Thank you for taking the time to read our letter. If you would like to get more information about us, please contact Catholic Charities. Our adoption worker can help make the connection between us. We would be happy to answer any additional questions that you may have. We wish you and your baby all the best in this difficult decision, no matter what you choose.

Sincerely,
Dean and Jean
