

Dear Birthparents,

We want to thank you for having the faith and courage to choose adoption for your child. It is because of you, and others like you that our dreams can come true. We appreciate you considering us as parents for your child.

About Nicole:

I grew up in a small community close to where we currently reside. I am the youngest of three children. After graduating high school I earned a degree in cosmetology. Although I enjoy doing hair on a part time basis I'm currently fulltime employed at a medical center as a request team member. I enjoy spending time with family and friends, attending our nieces and nephews sporting events and recitals, scrap booking, reading, playing sports, and playing with and walking our dogs.

About Mark:

I grew up in a small community close to where we currently reside. I am the youngest of two children. After graduating high school I earned a degree in carpentry. I am currently employed as a laborer. I enjoy spending time with family and friends, hunting, fishing, motocross, and sports.

Our Marriage and Life:

We dated for two years and have been happily married for three years. We have been wanting a family since the day that we were married. Unfortunately we were diagnosed with infertility and realized that God had a different plan for us.

We are fortunate enough to live near both our families. We have five nieces and two nephews that we get to spend time with regularly. We have a large close nit family. We belong to a wonderful small country Lutheran church that we were married in and will have our child baptized in. We also have four spoiled animals (two cats and two dogs) that we love playing and spending time with. We live fulfilling lives in which your child will complete.

Thank you for looking over our information and considering us. If you would like more information about us, please contact the Catholic Charities. You are truly a blessing to us and all couples looking to fulfill our dreams.

God Bless,
Mark and Nicole
